**3. If the District does construct a new elementary campus, would you consider returning to a PK-5 elementary grade tier structure.**

		Response Percent	Response Count
I support PK-5		49.7%	157
I do not support PK-5		15.5%	49
I have no preference		34.8%	110
		answered question	316
		skipped question	0

**4. A recommendation has been put forth to combine 9th grade with the current 10th-12th grades. This recommendation calls for a comprehensive renovation and expansion of the existing Lockhart High School. The project would address capacity, educational adequacy and specific improvements to support instruction and programs. It would be a multi-year project and involve input from staff and community members.**

		Response Percent	Response Count
I support an overhaul of Lockhart High School.		74.7%	236
I do not support an overhaul of Lockhart High School.		15.2%	48
I have no opinion either way.		10.8%	34
		answered question	316
		skipped question	0

**5. If the District moves 9th grade to the current high school campus, it provides an opportunity to repurpose M.L. Cisneros. A recommendation has been put forth to consolidate Administrative and support functions at M.L. Cisneros. For example, Central Administration, Special Ed., Community Ed., Pride High School, LDMC, etc.**

		Response Percent	Response Count
I support the repurposing of the M.L. Cisneros campus and the consolidation of Administration and support functions.		69.9%	221
I do not support the repurposing of the M.L. Cisneros campus.		16.1%	51
I have no opinion either way.		13.9%	44

1	New high school. Every time I walk into the science wing in the high school it makes me want to throw up. We want to improve math and science? We need to accommodate that with better facilities and labs that function.	Aug 28, 2013 8:49 AM
2	I really believe that a new high school needs to be built. It is important to have a facility that can accommodate all our students and provide a wonderful education and environment. Overhaul the high school and use it as an elementary campus.	Aug 23, 2013 3:14 PM
3	Although I know we have outgrown the facility, I believe that Carver Kindergarten has a wonderful age-appropriate climate and atmosphere. I would hate to lose that feeling completely in this district, and hope that we can continue to use that facility to house some of our Pre-K and Kinder classes.	Aug 23, 2013 9:27 AM
4	Lockhart ISD has one of the oldest high school campuses in central Texas. The high school should serve as a flagship campus for the school district and be a source of pride for the city of Lockhart. Renovations and updating the high school is badly needed to keep up with the tremendous population growth in Lockhart and central Texas.	Aug 22, 2013 2:20 PM
5	I would like to see the 9th grade campus continue to stay separate from the high school.	Aug 22, 2013 1:50 PM
6	As our student population continues to grow I believe the need for a larger high school combining 9th-12th grades becomes even more evident. The current 9th grade school building, as much as we love it, is slowly falling apart with time and we need a real solution that solves the problem of a growing population in Lockhart. A new larger scale high school combining all the high school grade levels would go a long way to providing a solution to the growing population concerns.	Aug 22, 2013 12:13 PM
7	n/a	Aug 22, 2013 9:17 AM
8	N/A	Aug 22, 2013 8:55 AM
9	I have no comments	Aug 22, 2013 8:54 AM
10	I think that ALL elementary schools should have the same grade levels. Example: All schools have kindergarten and Pre-K be at Carver. Parents like that about Bluebonnet. Another elementary school needs to have bilingual students too. This would make the schools more the same and not overload two schools.	Aug 22, 2013 5:50 AM
11	The only problem is that 9th graders have a much better chance of being successful when separate and apart.	Aug 21, 2013 1:26 PM
12	First priority should be the improvement of a new high school. I believe it would be better to build a new high school from scratch on the open piece of field across FM 20 of the high school and make it capable of handling grades 9-12. Then the current high school can also be purposed as another resource.	Aug 21, 2013 1:20 PM
13	The freshman campus is a unique campus that has a track record of academic success. While combining the schools would improve logistics for things like	Aug 21, 2013 1:09 PM

**Q6. Please provide any additional comments that might assist us in defining potential facilities improvements district-wide.**

	athletics and band, I feel the sheltered environment that the freshman campus offers a unique opportunity for student success. Perhaps, an overhauled high school with a freshman wing or an adjacent freshman campus would be something the district should explore. Go Lions!	
14	If the campus's are combined(9th, with 10-12) I would like to see a seperate wing or better yet, section for the Freshman... This seperation has done wonders for our students growth and transition to the 10th-12th grade.	Aug 20, 2013 4:40 PM
15	Improvements & upgrades need to be made to the existing facilities so that they look as presentable and desirable as the new facilities.	Aug 20, 2013 2:09 PM
16	With so many new arrivals to LISD, a new elementary is needed in the district. Plans should be put in place now for a new building to be constructed fairly soon before we have an overflow of children. As of now, our school is at its full capacity. I am sure other elementary schools are facing the same dilemma.	Aug 20, 2013 1:27 PM
17	Please put the 9th grade back with 10th-12th before my child makes it there in 5 years!!	Aug 20, 2013 12:57 PM
18	If you are considering purchasing land it should be done for a site to build a new High School,without the major focus being on athletic facilities.	Aug 20, 2013 9:10 AM
19	The high school campus is long overdue for an overhaul. Please focus reconstruction efforts there first then to the elementary schools.	Aug 20, 2013 8:21 AM
20	We really need a new high school in the district	Aug 20, 2013 6:54 AM
21	I feel I need more information about number five to make a good decision about it.	Aug 19, 2013 6:28 PM
22	Pride and LDMC together may lead community to believe that these students are "one in the same" when they are not.	Aug 19, 2013 5:43 PM
23	I would LOVE to see ALL elementary campuses to be pre-k to fifth grade. This will enable campus principals to have a greater amount of control on what the students learn.	Aug 19, 2013 2:55 PM
24	I don't like the idea of putting 9th grade back with the high school. I feel they need that transition year.	Aug 19, 2013 12:57 PM
25	lets have a great year!!!	Aug 19, 2013 12:12 PM
26	9th grade would be better @ High School	Aug 19, 2013 11:17 AM
27	I believe that an additional funds that the district has needs to go directly into servicing students. Clear Fork is in need of several building changes and those actions need to be addressed before other campuses/administrative needs are looked at.	Aug 19, 2013 10:57 AM
28	Possibly expanding the Junior High in number of classrooms and courses offered.	Aug 19, 2013 10:26 AM

**Q6. Please provide any additional comments that might assist us in defining potential facilities improvements district-wide.**

29	I agree with new improvements and building, but I feel having a freshman center was very beneficial to students of that age.	Aug 19, 2013 10:25 AM
30	We have outgrown the Junior high, and the locker room over crowding will quickly become a safety issue.	Aug 19, 2013 9:31 AM
31	The junior high is over crowded and it is a concern during passing periods. Maybe use freshman campus for 8th graders.	Aug 19, 2013 9:16 AM
32	Do this sooner rather than later.	Aug 19, 2013 5:18 AM
33	I really think the district needs to "bite the bullet" and build a new high school...enough with this kind of making do with what we have. It is embarrassing to compete with other school and then to have them come here and see our facilities...from the restrooms at the football field to the dilapidated high school building. Maintenance and custodial staff do a fabulous job keeping everything running and looking as good as possible. But, it's time to build a new high school facility!	Aug 18, 2013 7:50 PM
34	I feel the students at Carver should be moved to M.L. Cisneros and the existing Carver building be repurposed. Maybe, just maybe, the necessary changes would then be made to the ancient building that is old, disgusting, and unacceptable for housing young, germ-infested students. Oh, and I'd venture to guess the attendance rate for the Carver students would increase as a result of the cleaner working environment.	Aug 18, 2013 2:32 PM
35	A class 9-12 high school is key to academic and athletic growth, as compared to every other school in our district.	Aug 18, 2013 1:48 PM
36	Over-crowding at the primary level should be resolved immediately, followed by elementary and secondary needs. District administrative office space does nothing to meet the needs of our students and should not be a priority.	Aug 17, 2013 7:05 PM
37	Combining 9th grade students with the rest of the high school students creates a risk that 9th graders will be bullied.	Aug 17, 2013 4:06 PM
38	I would like to clarify my responses to items 4 and 5. I work at both LHS and the Freshman Campus, and while I support an overhaul of LHS and think it is necessary and overdue, I do not think that 9th grade should be consolidated with the upper levels. I have observed how freshman benefit greatly from a separate campus because it provides a smooth transition from middle to high school, and I think freshman should remain, at least in part, removed from the rest of the grade levels. At most, I believe a Freshman Center built on the campus of LHS should be considered, but a full-on mixture of 9th grade with the other grades, in my opinion, would be not be beneficial to the incoming freshman.	Aug 17, 2013 1:31 PM
39	I truly believe that it is critical for the 9th grade campus to be consolidated into the high school campus. Although it is beneficial for the freshman to have additional support, that support can be given within the high school campus as a school within a school, while still allowing teachers to function as a high school unit.	Aug 17, 2013 5:59 AM

**Q6. Please provide any additional comments that might assist us in defining potential facilities improvements district-wide.**

40	We are in desperate need of a new or expanded high school campus. The 9th grade does need to be on the same campus as 11th & 12th grade students.	Aug 16, 2013 9:26 PM
41	Combining 9-12 would alleviate bus travel and students being tardy to the freshman campus. The freshman campus would be great building to consolidate central office and other functions, so staff and others would travel to one destination.	Aug 16, 2013 4:26 PM
42	Consolidate 9th - 12th grades and remove the duplication of non teaching positions. They could be reassigned, removed or changed to teaching assistants etc. Yes, the high school needs attention but you must be fiscally sound in the decisions such as using the present campus, renovate and improve the classrooms, utilities etc and build up as needed. That may be more viable to the tax payers than a whole new school with more costs. Think, think and think again as to what we really need vs what feels good to the powers that be. I believe most people would prefer a good renovation vs a whole new campus for the high school. Improve the teachers ability to teach and how that can be done should be the first priority.	Aug 16, 2013 7:46 AM
43	Build a new High School	Aug 16, 2013 7:23 AM
44	I'm for a new elementary school in the future, with added construction to existing schools (not just portable buildings). We should not just think new, but rather growing and improving existing schools. As for the high school, combining the two campus and expanding (by building new and taller wings like San Marcos did in the late 90s) the current layout would greatly reduce redundancy in payroll, services, administration, maintenance, etc. and would be less costly in the long run. A refurbished school with newer wings would be good instead of relocating completely (new LHS gym, tennis courts, stadium).	Aug 16, 2013 7:08 AM
45	If the district is considering additional Elementary Schools due to rise in population, it would make sense to consider building or expanding the current Jr. High.	Aug 16, 2013 6:23 AM
46	I truly believe the high school should be renovated, if not torn down and start over with a new facility. It's embarrassing to see some of the rooms our teachers are assigned to work in during the year. Along with the embarrassment, there are definite health and/or safety issues someone would consider while using some classrooms. If you truly read this and are concerned take a field trip to Ms. Boyer's Art 2 classroom. Look at where she has to clean her art supplies (in an old wash basin next to an outdated, nasty old urinal). I would hate to know that's where I have to go to work and spend my time everyday.	Aug 16, 2013 6:18 AM
47	If I had to pick between the elementary and high school changes, I would say that the high school needs to be 1st.	Aug 16, 2013 6:05 AM
48	My opinion is we really need a new High School.	Aug 16, 2013 5:22 AM
49	What is a " PK-5 elementary grade tier structure" ?. Vertical alignment and reading teachers beyond the 4th grade would have more long-lasting effect on students than a new building. Don't spend any extra money unless we make those basic academic improvements.	Aug 15, 2013 9:15 PM

**Q6. Please provide any additional comments that might assist us in defining potential facilities improvements district-wide.**

50	A new HS and elementary are a necessity as are new athletic facilities. Especially a new stadium.	Aug 15, 2013 9:04 PM
51	Since the junior high has had extensions added to hallways in order to provide for more students, the junior high needs to hire more staff. Each grade could use more core teachers and more electives.	Aug 15, 2013 7:44 PM
52	It is time to renovate and or build new facilities to support the needs of the students and the ability to have more offerings for them.	Aug 15, 2013 7:41 PM
53	Combining the freshman campus and high school is a great plan! The comprehensive renovation could begin almost immediately in the buildings and rooms that would still be a part of the finished product, and any expansion areas could be built soon that are on the ground floor to house any displaced classrooms as renovation happens.	Aug 15, 2013 6:35 PM
54	more teacher restrooms at LHS please	Aug 15, 2013 5:34 PM
55	Just moving Pride to Cisneros would open an opportunity to greatly expand alternative Educational services in Caldwell County.	Aug 15, 2013 4:14 PM
56	Do not overhaul LHS, build a new campus! Sooner than later!	Aug 15, 2013 4:05 PM
57	I think considerations for expanding the junior high need to be looked at since it is the largest campus in the district. With a growing elementary population they will eventually feed into the junior high.	Aug 15, 2013 2:33 PM
58	If an upgrade to the existing high school campus means a benefit or even upgrade to LDMC I am in favor of the upgrade.	Aug 15, 2013 1:49 PM
59	Renovations that include combining 9th grade through 12th grade are imperative for this District.	Aug 15, 2013 12:38 PM
60	As a parent, I support freshman at the high school because both of my older children take advanced classes and do athletics/band and get bussed to the other campuses. As a former kindergarten teacher now fourth, K needs to be at every campus. We also need attendance zones to keep parents from campus hopping when they get mad at someone.	Aug 15, 2013 12:18 PM
61	Expanding ljhs	Aug 15, 2013 11:00 AM
62	Instead of redoing the high school, I think like was suggested with the elementary schools, to purchase or use already purchased land for a new High School. This will also address the increased expectations of student enrollment.	Aug 15, 2013 10:23 AM
63	Lockhart needs to build a larger and more modern High School for incoming students. A new High School with better facilities and labs in Sciences, Mathematics, English & History will allow for greater academic learning for all students and leave them better prepared for the work force, military, trade/technical school, or the university.	Aug 15, 2013 10:19 AM
64	I support saving money via consolidation but I do not support a lavish over haul of Cisneros. If it was good enough for our students it is good enough for the new	Aug 15, 2013 12:46 AM

**Q6. Please provide any additional comments that might assist us in defining potential facilities improvements district-wide.**

tenants, although some restructuring may be necessary.

65	I recommend that all elementary campuses become PK-5, in addition to any new ones that would be built.	Aug 14, 2013 3:06 PM
66	Carver Kindergarten needs to be expanded to take care of a campus that is at 100% capacity.	Aug 14, 2013 2:23 PM
67	I think our resources should be spent entirely on the KIDS. I do not support adding staff or facilities to Central Administration. I think our money is better spent on those who directly impact our students.	Aug 14, 2013 12:57 PM
68	Carver is busting at the seams. I know it's been discussed for many years to make it a PK-5, but if it remains a PPCD-K, we desperately need more classrooms.	Aug 14, 2013 11:21 AM
69	I do not like the idea of 9th grade girls being in such close contact with 10th and 11th grade boys. I also feel concerned about the younger boys being susceptible to possible bullying by older, larger children.	Aug 14, 2013 8:08 AM
70	The high school is in major need of renovation, please consider the high school repairs before moving to elementary construction.	Aug 14, 2013 7:04 AM
